

Camera operator / editor

Description

We have a one year internship position for a video camera operator / editor to capture and edit as live photography tips videos for marketing on Youtube and websites. You'll be working with an experienced presenter with 200,000 subscribers and 16.5 million views.

Videos are mostly shot 'As Live' with as few static cutaways as possible so you'll need to be able to think on the run as the camera's rolling.

Expenses will be paid and there may be opportunities for travel. If you're a passionate, reliable, stop at nothing person looking to gain experience and references we'd like to hear from you.

Here are 2 examples of the kind of videos you'll be making.

Shoot Into The Light

Blue Hour Christmas

<https://www.photographycourses.biz/videos/tips-and-features/techniques/christmas-blue-hour-photo-ideas-copy>

Essential criteria (Please don't apply if these don't apply to you)

Experience with video cameras (not DSLRs)

Video editing

Reliability

Samples of previous work / showreel

Desirable criteria (If you can do these you have an edge, but they're not deal breakers)

Experience with Final Cut Pro X

Driving license

Experience shooting 'As Live'

Producing

Youtube channel features and SEO

Using CMS based website builders

Responsibilities:

On location filming

Logging and filing footage

Video editing

Offer practical and creative input

Shoot scenes according to requirements

Resolve technical or practical issues

Requirements:

Proven experience as camera operator

Excellent communication skills

Ability to think and act quickly

Attention to detail

Enthusiasm
